SUMMARY & ACTIVITY

IT engineer with a profile education in Computer Science and work experience with interesting tasks.

Professional interests: practical cybersecurity (pentest, audit), video engineering and solution of unique tasks, creating content about it.

Blog, youtube

- I'm creating a video for a [YouTube channel](#) ↗ (Russian lang.) about IT, engineering: rubrics and projects.
- I write posts about bug bounty, analyze vulnerabilities in my personal blog

EDUCATION

ITMO University

Master's Degree in Web Technology

2019 — 2021

- I was researching the technology of streaming media content on the Web.

PenzGTU

Bachelor's degree in Computer Science and Engineering

2015 — 2019

- Developed a web application for multi-criteria evaluation of NTP servers.

EXPERIENCE

Security & Audit Engineer

November 2022 — For the present time

GetMount

Remote (UAE)

- Security operations: audit security and consulting clients
- External security partner, customer assistance in the protection of systems at all stages

Video developer

March 2022 — September 2025

Yandex & Kinopoisk

Remote (Russia)

- Joined the anti-crisis team on tasks:
 - creating video processing scenarios using FFmpeg.
 - add multichannel audio to the project.
 - content restoration tasks (deinterlacing, noise reduction etc).
- Classic tasks (OTT and VOD).

Security Consultant & Pentester

February 2022 — March 2022

RT MIS

Remote (Russia)

- Performed project work on strengthening the safety of the medical system.
 - including an architecture analysis, manual penetration testing, and the composition of reports.
 - focused on protecting personal data, successfully eliminated all critical vulnerabilities and significantly reduced the overall risk.
